Question 4 response looked garbled when I just looked at it.

Thank you Ed and Mike for the review.

We've updated the response, particularly for question #4. I also spoke to Cheryl about needing to make an announcement about the correction and she advises that we don't need additional comms since the typo does not change the science or conclusion. The lab provided this corrected report and we can help to get that reposted.

Subject: OPP IO review PFAS Interview with Bay Journal Follow-up Questions

Please find for your review the responses to the follow-up questions we received following the Bay Journal interview on PFAS in Packaging. Question 5 was answered by OECA and Question 6 was answered by RD. For question 7, could you please confirm the contacts are still accurate?
